## New Year's English Resolutions!

Our top tips for improving your English

Have you got some new goals that you're hoping to achieve in 2020? How about goals to help improve your English? Here are some of our favourite ways to practice English outside of class:

The secret to getting better at **speaking** English is practice, practice, practice! Start using English as much as possible at home, at work, in the shops, on the phone, etc. Even an extra 30-minutes a day of using English will make a difference.

You can improve your **listening** skills simply by having English in the background as you do other things, like radio, podcasts, movies, vlogs, or music with English vocals.

There are lots of great websites for learning new **vocabulary**, two of our favourites are *vocabulary.com*, *quizlet.com*.

Want to develop your **writing**? Why not send an email to a friend and tell them what you've been up to!

**Whatever you decide to do, the key to success is making it a habit – do something small every day!**
